- Lights in the sky – where are they coming from?
- Mysteries, Myths, Mayhem and Money
- Abducted – close encounters of the fourth kind
- The Gospel according to ET
- Look to the sky – change is coming
- The Gospel according to the Creator

### Book description:

Focused on one of the most persistent and haunting mysteries of our time, Alien Intrusion is a journey of exploration of the UFO phenomenon which has been documented over centuries. But even with our technological advances, are we any closer to solving this mystery?

Author Gary Bates revisits many of the famous events that define UFO culture, and some of the most widely documented claims of contactees. He presents evidence about abductions and other UFO phenomenon often ignored by the UFO community, and aspects of the issue that Christians do not want to even discuss – though they should. But the book not only shares research and conclusions about this popular controversy, it will also make you ask questions and challenge your thoughts about the nature of life itself.

**Author Bio:**

As a lifelong fan of sci-fi, Gary Bates' extensive background in marketing and communication have positioned him well to present in a fast-paced, gripping read the findings of his specialist research into UFO phenomenon and associated extra-terrestrial beliefs.

Unlike many UFO researchers, he avoids the 'one-size-fits-all' explanation. But in his research, along with uncovering many bizarre claims (and debunking some), leads the reader on a fascinating exploration of myth, mystery, and questions of who we are, how we came to be - and are we alone in this great big universe.

A convert to Christianity, Gary recognizes the way in which UFO beliefs are rapidly escalating in society and the church, challenging the foundations of many faiths. For many years, Gary has been speaking to church audiences on science topics, including creation/evolution. He is currently the head of the ministry development department of what is possibly Australia's largest parachurch organization, one that has spawned sister offices in five other countries.

**Possible Interview Topics:** UFOs and unexplained phenomenon, creation and evolution issues, popular culture manifesting in personal experiences and faith, popular myth and mysteries in faith
